Microsoft Teams Rooms System for Extra-Large Room

Yealink MVC series are native and easy-to-use video conferencing solutions specially designed for Microsoft Teams rooms. The MVC series provides a full-scene video conference solution to cover all of the meeting rooms from large to small. According to the unique characteristics of the video conferencing room, a high-performance mini-PC is specially released. In the design of mini-PC, it takes into account both aesthetics and practicability, that fully integrating the cable management with itself to provide a flexible and reliable deployment solution for any meeting room. The MVC series features the native Microsoft Teams-tailored user interface that is easy to be operated with close-to-zero learning curve, and you just walk into the meeting room and start your scheduled Teams or Skype for Business meeting with one-touch join. Yealink MVC940 includes two UVC84 USB PTZ cameras with 12x optical zoom and it provides you with a multi-camera solution that supports camera layout adjustment to meet the requirements of extra-large meeting rooms.

Key Features and Benefits

Native Microsoft Teams-tailored user interface, smooth conference experience

Native Microsoft Teams-tailored user interface offers a one-touch meeting join. Designed with the idea of multi-function all-in-one, the MTouch II touch panel allows you easily perform call control, camera control, content sharing and other functions. At the same time, MTouch II has a built-in Human Motion Sensor that the conference system can be automatically waken up and you can immediately start the conference.

Multi-camera solution, support camera layout

Yealink Camera-Hub can be used with multiple UVC84s to provide a multi-camera solution with the feature of camera, and users can flexibly switch the camera layouts as needed. The UVC84 camera supports 4K UHD video resolution and is equipped with 12x optical zoom to provide clear and lossless video images.

Content sharing in real time

The unique wireless content sharing solution provides participants with maximum flexibility, that a one-click content sharing can be simply realized by plugging into the WPP20 only. With a high resolution of 1080P / 30 frames, it provides users with a better content sharing experience. Besides, the wired content sharing is also available by connecting to the USB-C port or HDMI port.

Simple to deploy, easy to use

With the VCH port, MCCore is specially designed for the video meeting rooms that the deployment can be easily extended. At the same time, its all-in-one design with the feature of cable management ensure the stability of the wire connection, and the most appropriate deployment can be achieved according to the layout of the meeting room. One CAT5e is totally enough to connect the TV area and the conference table area and to complete the data transmission and power supply, no additional power supply or extension cable is needed, which not only simplifying the deployment but also effectively reducing deployment costs.

Manage your devices remotely

This solution supports Yealink Device Management Platform/Cloud Service, you can flawlessly manage, monitor, configure, update and diagnose all Yealink audio and video devices peripherals on this platform remotely.

Connection

- 💡 Do not connect the switch to the Internet, otherwise it will cause network abnormalities.
- 💡 The switch and ethernet cables should be purchased separately.
- 💡 When starting up the system for the first time, you need to connect a mouse to complete the initial configuration.
We recommend using the wireless mouse and keyboard kit.
- 💡 For more information about the installation and deployment of accessories (for example, the installation of MCore package or the camera-hub), refer to the Quick Start Guide of corresponding accessory.
