CRESTRON-SMART-SPACE

HD Video Conferencing Solution

Smart Space™ is the new multi-person, multi-display solution that delivers advanced enterprise-wide communication and HD video conferencing.

Smart Space is a tested and validated open architecture turnkey solution. It features an all-in-one, plug-and-play design that provides simple setup and operation, so you can spend your time more productively, instead of trying to get everything to work.

Developed by Crestron® for use with Cisco® conferencing and infrastructure, Smart Space enables you to easily take control of meetings with its standardized, intuitive user interface.

A repeatable, flexible, and scalable solution, Smart Space is simple to integrate, manage, and maintain. The code is already written, so no programming is required, saving you time and money.

Easy to Manage

- With its all-in-one, plug-and-play design Smart Space is simple to integrate, manage, and maintain
- Crestron provides the Smart Space pre-engineered program and quick start installation guide to authorized dealers, all at no charge
- Crestron authorized dealers load the program, use the built-in setup pages to instantly configure the system, and the customer receives a fully configured and streamlined system that is easy to use
- Takes the guesswork out of specifying and delivering HD video conferencing systems
- Enables technology managers to maximize investment in AV and communication technologies for conference rooms, training rooms, and other meeting facilities
- Scalable to your entire enterprise – deploy to one room or many, with consistent performance and ease of use in every room

- > *Intuitive touch screen controls ensure quick and easy start of meetings*
- > *Seamlessly launch HD video conference calls, audio calls, and presentations with a single press*
- > *Delivers high-quality audio, HD video, and crisp computer graphics locally or to remote locations*
- > *Control room lighting and motorized shades with built-in Crestron integration*
- > *Launches and starts Cisco Jabber® and WebEx® from the optional dedicated PC*
- > *Book rooms on the fly from the optional Crestron scheduling touch screen located outside the door*
